RIOT AND BLOODSHED

Exciting Scenes in the Connellsville Coke Region.

LIVES ALREADY SACRIFICED.

Unless the Military Interferes at Once the Dead Will Be Numbered by Hundreds. The Sheriff Powerless and Has Called on the Governor For Aid—Growing More Critical Every Hour.

UNIONTOWN, Pa., April 5.—It would take columns to tell in detail the exciting events of yesterday, the third of the big coke strike now on in the Connellsville region. At least nine lives have been sacrificed during the past 20 hours. Unless the strong arm of the military interfere the dead will be counted by scores of tens. So much excitement was never known in the region, and people everywhere are excited and apprehensive of graver dangers.

The rioting was commenced early in morning, but the climax was not reached until the afternoon at 3 o'clock, when a body of strikers numbering several hundred marched in the Davidson works of the H. C. Frick Coke company, at Connellsville, Fayette county, where the men were working. The strikers had been there in the morning to get the men out, but no one was working. In the afternoon when they returned deputies had been placed to receive them.

When the strikers approached they were ordered to stop. They came on and tried to get at the men on the ovens. The deputies fired. The strikers returned the fire and charged, driving the deputies and men from the plant. Chief Engineer Paddock of the Frick company ran up in the tangle of the works. The strikers followed, and shot him in the back of the head. They beat him and crushed his head with stones and threw his body from the tangle window to the ovens, 40 feet below. They then attempted to fire the tangle, but left when they saw the deputies returning with a large force from Connellsville.

Hearing of Paddock's murder, hundreds volunteered to avenge his death. The pursuing party in command of County Detective Frank Campbell overtook the strikers a half mile from Davidson and opened fire on them. The strikers fired in return, but ran on. Three strikers fell—one was killed instantly, shot through the body, and two others were fatally wounded. Another of the strikers, who got the start on the main body, was shot by a deputy at Broadford, a mile distant. He was also killed instantly, the ball penetrating his neck.

Eleven strikers were captured where the first battle took place, and the pursuing party kept up the chase until Dawson, a point seven miles distant, was reached, where 53 more of the strikers were captured. All the efforts of the deputies and more level-headed citizens were needed to prevent the lynching of the 11, who were taken back to Connellsville. The law-abiding element had their way, and at 8 o'clock a special train arrived with 64 of those who were in the mob that killed Paddock.

A great crowd greeted their arrival, and amid cries of "lynch them" the prisoners were hurried up a back street to jail. A large body of strikers were present and made a rush to rescue the prisoners, but were held back by the big crowd and the deputies. At the jail Hugh Coll, assistant chief engineer of the Frick company, identified several of the prisoners as among those that had killed Paddock.

Thirty more of the same band of strikers have been arrested, and the special train will return to bring them to jail.

Paddock was highly esteemed and was widely known. His murder occurred in sight of his home.

All the officials of the district organization of strikers will be arrested for complicity in the Paddock murder and inciting the riot and murder. Every effort will be made to hunt down the guilty ones.

At the Mayfield plant of the McClure company two men were fatally shot during the day. The strikers charged the men at work in the morning, but were driven off by the deputies after a striker was shot through the body. In the afternoon they returned and renewed the attack. There was much firing, and a deputy was fatally wounded.

At a riot at the Painter works, the women beat a workman fatally.

Sheriff Wilhelm has called on Governor Pattison to order out the national guard. The sheriff and his deputies are helpless. Unless the national guard is in the region soon, there will be more bloodshed. The strikers have planned a mammoth raid from one end of the region to the other and nothing but the military and plenty of them can prevent great loss of life and destruction of property.

That the strike is a success so far as the southern end of the region is concerned, is admitted by all, and the final success of the movement will depend entirely upon the resistance put forward on the northern end. At the present time all the works south of Connellsville and west of the Youghiogheny

river are shut down, while all the works north of Connellsville are in operation excepting the Donnelly plant of the McClure company.

All the works of W. J. Rainey are out. These include 1,422 ovens distributed as follows: Rainey, 175; Fort Hill, 186; Grace, 410; Paul, 403; Mount Braddock, 170. This is the first time in 10 years that the labor organizations have been able to get Rainey's men out, and the strikers are generally elated over it.

The Frick and Rainey companies are determined to fight to the end and have their works well guarded by deputies. Twelve hundred rioters are marching on the Moyer works of W. J. Rainey, where 150 deputies are on guard. A massacre of rioters will occur there if the projected attack is made.

At 2 o'clock this morning, President Davis of the United Mine Workers was arrested at Connellsville charged with murder, in connection with the killing of Engineer Paddock.

STRIKE SPREADING.

The Coke Troubles Have Now Reached the Northern End of the Region.

MOUNT PLEASANT, Pa., April 5.—When the coke strike began in the southern end of the region, very few people here, if any, gave it any serious attention, but yesterday's developments have given the matter a most serious aspect. The strikers attacked the Donnelly works of the McClure company, four miles west of town, early yesterday morning, and while the plant ran all day, it was under the protection of deputies.

Sheriff McCann came down at noon to Donnelly and in the afternoon was brought here. General Superintendent Ramsey of the Southwest Connellsville Coke company at once turned over in his hands Moorwood and Alice, the only two plants of that company in blast. It is said a mob of 4,000 strikers is waiting near Scottsdale to move on these two places.

Justice Stevenson was taken to Morewood where he is now swearing in 50 deputies, who will all be armed with Winchester and held to repel the expected attack.

As a rule the Southwest men, as well as the Frick employees at Standard, are opposed to striking, but there is every reason to believe they would not assist in a fight against the strikers.

General Manager Lynch of the Frick company is here to give Sheriff McCann the benefit of his many years experience in the strike business.

KANSAS CITY RIOT.

All the Wounded Still Alive, but Can Hardly Recover.

KANSAS CITY, April 5.—The three men reported as fatally wounded in Tuesday's A. P. A. Catholic election riot are still alive, but reasonable hopes of their recovery are not entertained. Pate, the deputy constable who precipitated the riot while trying to arrest one of the Pryor family, told his story of the affray while suffering intensely from his wound. He said he believed that Mike Callahan, who was killed outright, is the man who shot him. He says that while he was attempting to take Pryor some one threw his arms around him and Callahan fired. Pate is one of those mortally wounded.

Harry Fowler is another one. His statement may be regarded as an anti-informant statement, for it is thought nothing short of a miracle can save him. "I do not know just how the fight began. I saw a man unknown to me attempt to shoot Callahan. I dashed out to grasp the man's hand and save Callahan and somebody shot me in the back. I dropped to my knees, then got up, ran across the street and fell again."

The eight men under arrest are all deputy constables appointed by a suburban judge or deputized by a Westport constable to arrest the Pryors for an alleged assault. Only one of the Pryors has been arrested in connection with the riot, as the others were far from the scene when it occurred.

Complete returns on the vote for mayor in this city show the following result: Webster Davis, Republican, 12,283; Frank Johnson, Democrat, Independent, Democrat and Labor candidate, 5,327; Frank Cooper, Independent, and endorsed by regular Democratic convention, 4,482; J. J. Davenport, Independent Republican, 315.

Majority over all for Davis, 2,150. The entire Republican ticket runs very close to Davis.

Will Be Taken to Portugal.

LISBON, April 5.—The steamship Angola, commanded by Post Captain Andrade, with a detachment of marine infantry on board to act as police, has left this port for Buenos Ayres, where the vessel will embark the Brazilian refugees who are now on board the Portuguese warships at that port. The Angola will come straight back to Portugal and will not touch at any Brazilian port.

Trampled Under a Horse's Hoofs.

PORTSMOUTH, O., April 5.—Charles Morton, aged 50, lies at his home in a precarious condition, the result of an accident. Mr. Morton was standing near the East End watering trough when a horse near by became unmanageable, trampling the unfortunate victim in a horrible manner.

Child Burned to Death.

HOPKINSVILLE, Ky., April 5.—At Pembroke, a station south of here, a little 9-year-old daughter of George Holland was burned to death by her clothing catching fire while she was watching alone by a sleeping infant.

His Life For His Hat.

UPPER SANDUSKY, O., April 5.—An unknown man jumped from a Hocking Valley passenger train yesterday afternoon for his hat which had blown off, and was instantly killed. He had on a brown suit, light mustache, closely cut hair and age about 37.

AN INFORMER SHOT.

One More Life Sacrificed in the Whisky War.

NEGRO KILLED AT DARLINGTON.

He Had Told the Militia Commander of a Whisky Purchase—Governor Tillman Thinks That the Worst Is Over and Will Recall the State Troops—Inquest Held Over the Victims.

DARLINGTON, S. C., April 5.—At 11:30 p. m. yesterday an officer dashed into the headquarters of General Reichburg and announced that a man had just been shot to death in the Cleveland hotel. General Reichburg and the other officers rushed out of the building toward the scene of the shooting. The officer in command of the squad at the dispensary placed his men in line and sent them double-quick to the Cleveland hotel ahead of General Reichburg and the staff officers. The inmates of the hotel were in a state of great excitement.

Going into a narrow hallway, which leads to the kitchen on the second floor, the body of a colored man was found. He had been shot through the heart and killed instantly. His name was Henry Green and he was the second cook of the hotel. The man who killed Green was Dr. V. H. Payne, one of the guests of the hotel. He was put under arrest by General Reichburg and taken to jail.

Dr. Payne came here about two months ago from Nashville. He is an agent for the New York Life Insurance company. It appears that the negro had went before General Reichburg, commander-in-chief of the state volunteers, and made affidavit that he had seen Dr. Payne coming out of the dispensary last Sunday with his pocket filled with bottles of whisky.

Dr. Payne met him in the hotel corridor and spoke to him in regard to the statement which Green had made. Hot words were passed on both sides, Green giving Dr. Payne the lie and making demonstrations toward him, when Payne pulled his pistol and shot him. The pistol was placed at the negro's breast, as the shirt was burned from the powder.

Troops to Be Recalled.

COLUMBIA, S. C., April 5.—Governor Tillman now feels assured that there will be no further trouble as a result of the Darlington dispensary killing. After holding a lengthy conference yesterday with a Darlington committee, consisting of ex-Congressman Dargan, Mayor Dargan and Colonel W. C. Coker, he made the following statement to the press:

"They came here for a conference with me at my invitation—that is I asked Mr. Coker to come and the other gentlemen expressed a desire to come too. We have had a full talk over the situation in all its aspects and as a result I have instructed General Reichburg to prepare everything to bring the troops back here on Friday. They will arrive at 11 o'clock and the companies from the upper country will go on through, while all the others will be distributed about the state on the first outgoing trains. I do not care to keep the force there any longer than is necessary. I have promised the committee nothing and they have promised me nothing. I have agreed, however, that if those men in Darlington who have caused trouble will stand their trial I will let the civil law take its course all the way through."

Concerning the resolution introduced in congress in regard to this stoppage of telegrams, the governor said: "Oh, I don't care to notice every crank who offers a little resolution in congress. When congress takes some action, if it does, then there will be time for me to talk and I will have something to say."

The only noticeable event here of the day was the appearance of the whole company of spies, who took part in the killing at Darlington. Contrary to their practice they wore their badges on the outside. They left here in the afternoon to attend the inquest at Darlington.

Coroner's Inquest Secret.

DARLINGTON, S. C., April 5.—The inquest on the bodies of those killed in the dispensary tragedy has been in session all day and all night. The constables arrived after dark under military guard and gave their testimony during the night and then returned to Columbia. The inquest is entirely secret, heavily guarded by troops. There is no disturbance, and apparently the inquest will proceed without disorder. The inquest is expected to continue two or three days.

THE WRECK OF THE KEARSARGE.

Commander Heyerman Guilty of Negligence—Suspended Two Years.

WASHINGTON, April 5.—The result of the court martial in the case of Commander O. F. Heyerman, commanding the Kearsarge when she was wrecked, is as follows:

He was found guilty of the first charge, "through negligence in suffering a vessel of the navy to be run upon a reef and stranded," and also of the second charge—"the first word 'culpable' having been stricken out"—of inefficiency of performance of duty."

He was sentenced to be suspended from duty for a period of two years on waiting orders, during which time he shall retain his present number on the list of commanders. In view of the long and faithful service of Commander Heyerman, all the members of the court recommended him to the clemency of the reviewing authority.

The sentence of the court is subject to the approval of the secretary of the navy, and he will not act upon it until the proceedings of the court martial in the case of Lieutenant Lyman, now in progress, reaches him.

PRENDERGAST SPARED.

The Day of His Hanging Postponed Until July 2.

CHICAGO, April 5.—Assassin Prendergast will not be hanged before July 2, and not until May 21 will the investigation into the condition of his mind be commenced. Such was the order entered by Judge Chetlain yesterday afternoon at 5 o'clock. The defense insisted on the case being tried before a jury from the regular venire and to this the state's attorney stoutly objected. He insisted that a special venire should be made, as he wanted "men of intelligence" to try the case; not the kind of men to be found on the regular jury.

When the hearing came up before Judge Chetlain yesterday, it was agreed that only one continuance should be made and that one long enough to provide for the full trial of the case. The state asked for four months and the defense asked for two weeks more. The trial of the case was reckoned to take a month, and consequently the dates of May 21 and July 2 were agreed upon. The case is now in an awful tangle and neither State's Attorney Kern, Special Counsel Trude, upon whom the burden of the prosecution rests, nor the attorney for the defense, are prepared to say what will be the outcome.

CHINESE TREATY PROSPECTS.

Ratification Probable After Slight Amendment.

WASHINGTON, April 5.—The Chinese treaty probably will be taken up at the next executive session of the senate, as it now has the right of way on the executive calendar. There is very little if any doubt that the treaty will be ratified, but there will be some objection and an explanation of some of its terms will be called for from the members of the committee on foreign relations, who are its sponsors. Senator Perkins of California, in all probability, will antagonize a part of the treaty and will seek to have it amended in some respects. Other western senators, while not so positive in their opposition as Mr. Perkins, probably will support Mr. Perkins in his position.

It was originally supposed that Senator White would join with Senator Perkins in antagonizing the agreement, but it has been ascertained that he favors the treaty. He is now at his home in California, but it is understood that if he were here he would be friendly to the convention. His support and that of Mr. Geary, author of the Chinese registration law, have given the administration much encouragement and go far towards assuring them that the treaty will prove acceptable to the people of the Pacific coast, and that it will receive the sanction of the senate.

LOSS TO A VILLAGE.

Business Portion of Lancaster, N. Y., Destroyed by Fire.

LANCASTER, April 5.—A most disastrous fire visited Lancaster last night and wiped out a great portion of the business section of the town before it was checked. Over 12 business blocks and private houses were destroyed and the total loss is estimated at over \$100,000, probably only one-third insured.

Fire started in the barn of the Mosick market on Central avenue about 10 o'clock and spread rapidly. Help was summoned from Buffalo. A special train over the Erie road at 1:30 brought an engine and a company of firemen, and with their aid the fire was put out.

Election in Rhode Island.

PROVIDENCE, April 5.—The election was a clean sweep for the Republicans throughout the state; the gains were notable. In this city the victory was celebrated at 1:15 o'clock a. m. by firing a salute from the Cove. A 1:30 street parade was started and Governor-elect Brown escorted to his home. Democratic papers concede Brown's election by a plurality of 4,914, and say the general assembly is also the enemy's. Returns from all but five towns give Brown 23,091, Baker 18,380.

Held For the Grand Jury.

NEW YORK, April 5.—The inquest into the death of Martha J. Fuller, the typewriter, who was killed by a pistol shot in the office of Lawyer Mullen on March 17, was concluded yesterday. The coroner's jury reported that they were unable to determine who fired the shot. The attorney's clerk, Magee, suspected of having killed Miss Fuller, moved for his discharge from custody, but Coroner Fitzpatrick declined and held him for the grand jury.

Mother and Three Children Drowned.

ABERDEEN, Miss., April 5.—Mrs. William Raymond, who lives at Cherokee, near the Alabama line, started for this town yesterday in a buggy, her three children with her. While crossing a bridge over the Hatcheechabee river, the horse drawing the buggy became frightened and jumped against the railing of the bridge. It broke, and horse, buggy and occupants fell into the river below. Mrs. Raymond and the three children were drowned.

Carpenters Go on a Strike.

INDIANAPOLIS, April 5.—The carpenters' council at a meeting last night voted unanimously to go on a strike. Twelve hundred union carpenters will lay down their tools. If the fight is prolonged, it will affect all other building trades in the city. The wage schedule adopted by the carpenters' council was 30 cents an hour for an eight-hour day. The contractors refuse to pay more than 27 1-2 cents.

Shot a Burglar.

WARSAW, Ind., April 5.—George Weirick, a merchant at Palestine, near this city, shot and instantly killed a man this morning, who was trying to gain entrance to Weirick's store for the purpose of robbery. The dead burglar is unidentified and is supposed to be a tramp.

VOTE ON THE VETO.

Bland's Seigniorage Bill Finally Disposed Of.

IT FAILS TO PASS THE HOUSE.

Seventy-Four Votes Short of the Necessary Two-Thirds to Pass It Over the President's Veto—The English-Hilborn Election Contest Decided in the Former's Favor—Tariff Talk in the Senate.

WASHINGTON, April 5.—As soon as the house met the Republicans resumed their filibustering tactics to prevent the unseating of Mr. Hilborn (Rep., Cal.). They resisted the approval of the journal and forced the yeas and nays upon the demand for the previous question.

The Democrats failed to secure a quorum on the demand for the previous question and the approval of the journal, and, to avoid tedious and complicated proceedings, involved in a call of the house, Mr. Springer moved to adjourn, with the understanding that the Democrats would vote down the motion. One hundred and eighty-five Democrats voted down the motion to adjourn, and thereupon Mr. Springer made the point of order, a quorum having appeared, that the demand for the previous question on the approval of the journal was an intervening motion under the terms of the order under which the house was operating.

The speaker sustained the point of order and refused to entertain an appeal from his decision. He stated the question to be on the latter half of the substitute resolution, declaring Mr. English not elected and not entitled to his seat. This half of the resolution was disagreed to—12 to 167.

Mr. Reed demanded a division on the majority resolution and the next vote was taken on the resolution. "Hilborn not entitled to a seat," adopted—170 to 13.

The resolution to seat Mr. English was adopted—165 to 15.

Upon the announcement there was a burst of applause from the Democratic side, which was renewed when Mr. English was escorted to the bar of the house and sworn in.

Mr. McCrary then asked unanimous consent to consider the senate bill to give effect to the award rendered by the tribunal of arbitration at Paris under the treaty between the United States and Great Britain in regard to the preservation of fur seals in the Behring sea. Mr. Payne (Rep., N. Y.) objected.

Mr. Bland then called up the seigniorage bill retimed by the president with, out his approval and moved that it pass, the objections of the executive to the contrary notwithstanding. The members who wanted the bill debated got into a wrangle over who should speak on the measure, and in the confusion the rollcall was begun and the speaker would not allow it to be interrupted.

The Republicans were beside themselves with anger. They refused to vote on the first rollcall. The anti-silver Democrats were in despair as the first rollcall gave the silver men the necessary two-thirds.

Finally, after a consultation they agreed to vote and did vote on the second rollcall. This turned the tide and upon the announcement of the vote it was found that the motion to pass the bill over the veto had been defeated, the silver men lacking 74 of the necessary two-thirds.

The house then, at 5 o'clock, adjourned.

In the Senate.

WASHINGTON, April 5.—In the senate after the morning hour, at which a few local bills affecting the District of Columbia only, was passed, the tariff bill was taken up and discussed until adjournment, Mr. Allison and Mr. Mills making the two speeches.

PENNSYLVANIA FEUD.

A Tragedy Which Will Probably Result in Two Deaths.

PITTSBURGH, April 5.—On Monday evening, at Legionville, near Rochester, Pa., a tragedy took place which will probably result in the death of James Clark and Chris Hartley. Clark is about 30 years of age and married, his wife being but 16 years old.

A feud of long standing has existed between Clark and Hartley, which culminated Monday evening when Hartley came to a blacksmith shop where Clark was carrying a mattock to be sharpened. Clark informed Hartley that the mattock could not be sharpened there. This enraged Hartley, and he struck Clark on the shoulder with the mattock, almost severing the arm.

When Clark fell he called for help. His wife, Lena, rushed in carrying a gun and shot Hartley four times. Both of the wounded men will die. No attempt has been made yet to arrest the woman.

CURRENCY QUESTION.

Feeling Developed in an English Chamber of Agriculture Committee.

LONDON, April 5.—The committee appointed by the chamber of agriculture to consider the question of bimetalism has reported. It finds that the silver systems of the United States and India have depressed the value of silver until it is now reduced to one-third the price of gold under the system of bimetalism prior to 1873. The committee recommends the appointment of a royal commission on the currency.

Several members of the chamber objected to the report of the committee, claiming the present depression, particularly in agriculture, was not due so much to the silver conditions as to other causes, one of which was the importation of foreign cattle and grain.

The Wilson tariff bill as it now stands reduces taxes about \$75,000,000, and still, according to the estimates, will provide a little more than enough revenue for the Government's expenses. A measure like that commends itself to all sensible people of whatever faith or party.

REPUBLICAN papers have failed to note the fact that Arkansas has sent four men to the penitentiary for lynching a negro. In Ohio and Pennsylvania members of mobs who recently hung a couple of negroes are still at large, and there has been no especial effort made to punish them, as far as we know.

LOUISVILLE is making a determined fight for the National G. A. R. encampment in 1895, and from present indications will win. Certainly the veterans could find few more delightful places than the Falls City for a National assemblage of their association. Kentucky gave many of her best and noblest sons to each side during the late war, and we believe the boys who wore the grey would vie with those in blue in extending a warm welcome and genuine hospitality to the veterans of their association should ever meet on the soil of the grand old Commonwealth. Louisville is as well prepared as any city in the country of her size to entertain such a gathering as the National meetings of the G. A. R. usually bring together. Her location and the facilities for reaching her by rail and river are also largely in her favor. Her competitors for the '95 meeting will find she is in the fight before the matter is settled. Here's hoping the Falls City will win.

HIS CONVERSION.

Evangelist Fife Tells of His Change of Heart and Life—Something of His Work.

Richmond (Va.) Dispatch, March 30th: "The last time that I was in Richmond," said the noted drummer-evangelist, Rev. William P. Fife, just before he took the train for Maysville, Ky., where he goes to hold a revival, "I came to this city to buy a bill of whisky. I am thankful that my mission this time has been a better one."

"How long have you been preaching, Mr. Fife?" queried the news-gatherer, with some timidity.

"I preached my first sermon in the little town of Kinston, N. C., in September, 1889."

Mr. Fife then told the remarkable story of his conversion in Wilmington, N. C., under the preaching of Evangelist R. G. Pearson, April 2, 1888. He had been a commercial traveler from the 19th year, and had led a pretty fast life. Mr. Fife admitted that he had drank and gambled, and was very heavily in debt, owing about \$10,000 as a consequence, when he gave his heart to God. Every penny of this had been paid since he had been preaching, and he was a happy, free man. Speaking of his conversion, the drummer-evangelist said that at the time it occurred he was living with his family in Fayetteville, N. C. He learned that Pearson was conducting a meeting in Wilmington, and went down to hear him. He went back home, but had been so impressed that he returned to hear the preacher again. He remained a week in attendance upon the meetings. He had been deeply convicted, but vowed in his room that he would not give his heart to God. On the morning of April 21, 1888, he paid the hotel bill, had his baggage put on the boat, and was determined to leave Wilmington after the services that evening. When night came he went to the meeting, became converted, went back to his hotel, and got a party of his wicked friends together and held prayer with them.

After his surrender to God, Mr. Fife continued in his story, he traveled eighteen months for his house, but never failed to work and pray and do whatever was in his power for the glory of Christ. He gave up the road, as previously stated, in September, 1889.

"Being a man of the world prior to that time, Mr. Fife, were you not sorely tempted and tried after you had made a profession of faith?" the reporter ventured to ask.

"By no means. I found that everybody respected me for what I had done. I did not have so much trouble then as I have had since," the preacher laughingly replied.

As an evangelist, Mr. Fife's success has been almost unparalleled. Although it is but four and a half years since he began his work, his labors have been instrumental in bringing 20,000 souls to Christ, and church statistics show that about 15,000 of this number have been added to the church-rolls throughout the land. His recent meeting in Charleston, W. Va., was most gratifying. There were about 400 professions, and 300 have already joined the church. The drummer-evangelist has conducted revivals in almost every State in the South. His principal points are his downright sincerity and his knowledge of the ills of sinful humanity.

INTEREST STILL INCREASING.

The audiences on yesterday at the First Baptist Church were larger than any previous day. It is expected in a few days to hold the meetings in the opera house so that all may hear Mr. Fife. The necessary money for the rent of the building was pledged last night. Mr. Fife again talked to church members on the subject of effective prayer. It was a very clear presentation, and Christians will do doubt remember the conditions when they pray.

The singing led by Mr. Maloney was very fine and every body went home in a good humor. Mr. Fife does not believe in making a church an ice house.

UNNECESSARY OFFICE AND LAWS.

Representative Wolverton's New Bill Introduced in the House.

WASHINGTON, April 5.—A bill introduced in the house by Mr. Wolverton of Pennsylvania abolishes the office of United States circuit court commissioner, and repeals all laws authorizing appointments thereto.

The attorney general is authorized to divide the states and territories into so many commissioners' districts as he may deem necessary to secure the speedy and economical administration of the laws, and to change the boundaries of such districts or create new districts when in his opinion the proper administration of justice may require it.

The president is authorized to appoint on the nomination of the attorney general a sufficient number of commissioners in these districts to insure speedy and convenient hearings and trials of all persons charged with offenses. They are to hold their office for a term of four years, unless sooner removed, and the attorney general is authorized to remove such commissioners when the proper administration of the laws shall, in his opinion, require it.

The commissioners have the same jurisdiction in their districts as now conferred on federal circuit court commissioners, and are authorized to try with a jury of six, all offenses punishable with fine or simple imprisonment, and on conviction or a plea of guilty to sentence the defendant with the same effect as if the defendant had been convicted in the United States district court. They are not allowed to retain out of their fees as compensation more than \$2,500 per year, and stringent provisions are made as to fees and returns.

"It is believed," said Mr. Wolverton, "that this bill if it becomes a law will go far towards correcting the abuses which prevail in many states by which large fees are made for circuit court commissioners and marshals. They have jurisdiction only within their districts and the deputy marshal will be deprived of the opportunity of arresting a person in one part of the state and dragging him the whole length of the state for hearing before a particular commissioner."

COLD WEATHER DAMAGE.

Reports From Correspondents in Ten Different States.

CHICAGO, April 5.—The Farmers' Review says:

Reports from correspondents in 10 states, as to the injury done to wheat and fruit by the recent severe cold weather, show the damage to wheat is small in the aggregate, but very bad in some localities where the plant had made rapid growth. The disaster to fruit was widespread, the states where the trees were most forward suffering most.

In the northern sections of a number of the states the larger fruits were saved for the reason that they had been held back in development. The 10 states reported are as follows: Illinois, Indiana, Ohio, Michigan, Kentucky, Missouri, Kansas, Nebraska, Iowa and Wisconsin.

California Crops.
SAN FRANCISCO, April 5.—Reports to the Associated Press from all the principal grain producing counties in California are that the outlook is excellent for wheat and barley in all the northern counties, except part of the section west of the San Joaquin river, and except the southern counties. In these localities the lack of rain has been severely felt, and the growing grain is in places much damaged.

The bulk of the output, however, is raised in the remaining counties, which report that rain is needed, but that so far no damage has been done. Showers may be expected in April. On the whole, unless new adverse influences intervene before harvest, the wheat yield will be abundant, fully up to the average, while the barley output will not be more than the average, perhaps less.

Reports from the fruit growing regions are uniformly encouraging for an enormous yield of all varieties of deciduous fruits, though in one or two localities late frosts have injured apricots and peaches. A very heavy crop of citrus fruits is now being harvested in southern California, and much new acreage is being planted. Fogs in this part of the state have largely taken the place of rains.

Got Off Easy.

NEW YORK, April 5.—William T. Zell, formerly treasurer of the New York Athletic club, and employee of the Lehigh and Wilkesbarre Coal company, was sentenced to four years in state's prison by Judge Cowing, in general sessions. Zell pleaded guilty to grand larceny in the first degree, having embezzled \$93,000.

Youth Attempts Suicide.

PARKERSBURG, W. Va., April 5.—Homer Hopkins, aged 15, living 25 miles in the country from here, made a desperate attempt at suicide last night. His mother reprimanded him for bad conduct and he said, "I'll end myself now," whereupon he got a shotgun and shot himself in the breast. He will probably die.

Strikers Reprimanded.

ANDERSON, Ind., April 5.—Four hundred men and boys who struck at the Lippincott lamp chimney works to have a young fellow recently discharged employed again have returned to work, having been reprimanded by the president of the glass workers at Pittsburg.

Natural Gas Explosion.

MUNCIE, Ind., April 5.—At noon yesterday a natural gas explosion occurred in the furnace of the elegant new High street Methodist church, doing considerable damage. The sexton was badly burned. It is surprising that the church was not burned.

Child Crushed to Death.

FOSTORIA, O., April 5.—A little son of William Glenn, aged 12, met a horrible death. He, with others, was pushing and coupling flatcars in the Nickel Plate yard, when his head was caught between the bumpers and crushed to a jelly.

Miners Return to Work.

SALEM, O., April 5.—The 500 coal miners who struck at New Lisbon last week against a reduction, returned to work yesterday, the operators having agreed to continue the old rate.

FOUR PERSONS INSTANTLY KILLED.

Two Others Fatally Injured by a Mysterious Explosion.

OIL CITY, April 5.—A terrific explosion occurred here at 5:30 o'clock yesterday evening, by which four persons were instantly killed and two fatally injured.

The dead are: Joseph Kaullis, a German laborer, aged 30; Mary Kaullis, aged 6 years; Joe Kaullis, aged 4 years, Mary Tamer, aged 7 years.

Mrs. Kaullis and her babe, 6 months old, were seriously hurt, and are now lying in a dying condition at the hospital. The cause of the explosion is a mystery. When it occurred Kaullis was on the back porch of his residence, and the children were playing in the yard. His wife and youngest child were inside the house. There was no gas burned in the house, either for fuel or lights. The bodies of all were terribly mangled, and the entire rear portion of the house blown into kindling wood.

The only plausible theory advanced for the disaster, is that Kaullis found a glycerine can and had brought it home with him, and it was accidentally exploded. Kaullis was a German laborer, thrifty and industrious and highly respected. The coroner has impaneled a jury and will thoroughly investigate the affair.

Cherokee Indians Rolling in Wealth.

NEW YORK, April 5.—In the subtreasury a group of admiring officials surrounded a pile of paper currency, the dimensions of which were about 30 cubic feet. It represented \$6,740,000, and was the money paid in by R. T. Wilson & Company, the Wall street bankers, for the bonds of the Cherokee nation, which were awarded to them after a long fight. It was not an easy matter to get this amount of currency, but the Union Trust company finally supplied it and in the afternoon it was put into a cab and sent to the subtreasury. The money is in all denominations, from \$1,000 to tens. It will remain in the subtreasury vault until the Cherokee nation demands the whole or any part of it.

Farming Don't Pay in Kansas.

TOPEKA, April 5.—The commissioner of labor, James F. Tood, has finished his investigation relative to the farming industry of the state, and the conclusion is that farming is a very unprofitable business in Kansas. The department sent 1,918 letters to farmers asking "does farming pay?" To this query answers came from 1,292 of the 1,523 townships in the state. Of that number 1,251 answered emphatically "no," while the 41 others answered "yes."
